Addo Sign

At Addo Sign, we aim to be completely transparent about our prices and services so that our customers can clearly see the cost of our offerings. Not all solutions on the market provide the same transparency. As a result, price comparisons based on what others list on their websites can often be misleading and may give the impression that we are expensive, which is not the case. We are attractive and at the same time competitive in terms of price, quality, and service. So feel free to contact if you want to hear more before making your decision.

Subscription and service prices

Introduction

When you use Addo Sign, services are paid through a credit system. A subscription includes a number of credits that can be used for, for example, selecting our various signing standards and services. We thus offer all of our functionality, but you only pay for what is used. This gives our customers full flexibility to tailor their signing flows as needed.

Our standard signing method is a touch signature on the phone, this costs 1.00 credit. Eg. MitID and swedish BankID signing can also be selected for extra security and costs 1.25 credit. In the price list, you can see the cost of using all our services.

Subscriptions

Addo Starter is free but requires the purchase of credit packages as needed. The other plans include a fixed monthly number of credits, which are automatically renewed each month, meaning that unused credits are not carried over to the next period. If more credits are used within a period, they must be purchased at a fixed unit price.
